DETAILED ACTION

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest, singularly or in combination, at least the limitations of a reflective filling compound provided between the semiconductor arrangement and the inner side of the basic housing, wherein the reflective filling material is not only "concave" but also extending from the inner side of the basic housing to "a top edge of the carrier". The above limitation is not addressed by Harrah in view of Komoto and further in view of Salam because none of them suggest modification of the reflective filling material so that it extends to "a top edge of the carrier" (in conjunction with the other limitations of the claim) or the corresponding motivation for such a modification.

It is noted that above feature of reflective filling material extending to "a top edge of the carrier" is taught by Ruhnau (US 6,900,511). However, applicant's response of 02/23/2009 includes a certified English translation of the German foreign priority application to obtain the benefit of foreign priority date of September 30, 2002. Because the subject matter of the above foreign priority application supports the pending claims and because the filing date of the priority German application precedes the earliest prior art date of Ruhnau, Ruhnau is now disqualified from being used for prior art purposes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
